JOIN THE EV REVOLUTION

EVI PILOT CITY FORUM 2021

The road to scaling up: from pilot-scale to
commercial adoption

When : 8 - 9th November 2021

Where: Apex Hotel, 1 W Victoria Dock,
Dundee, Scotland, United Kingdom, DD13JP

This hybrid event aims to facilitate communications and cooperation among leading global cities interested in stimulating and increasing the uptake of electric mobility within their jurisdictions.

PROGRAMME OF EVENTS

Day 1

9 am - 11:30am

Tour of Dundee City

Latest developments in EV and infrastructure projects around the City of Dundee. Visiting our pop-up chargers at Dundee Waterfront, our multi-model charging hub in Broughty Ferry, Law Hill, Princes Street Charging Hub and our electric bin lorries.

Day 2

9 am - 5pm

Welcome - Councillor Mark Flynn

Session 1 - Policies for accelerated EV deployment in cities

What policies are most urgently needed to enable greater EV adoption in cities? Case studies of projects also provide insights into city-level engagement and EV deployment.

Lunch

Session 2 - Strategising city networks and charging infrastructure

Hear from cities and other charging service providers on what has worked and what hasn't worked in city-level infrastructure development. How can larger charging networks be planned and co-ordinated to operate optimally and cost-effectively within a city?

Session 3 - International Collaboration

What does international collaboration look like after COP26? How can we better engage with and learn from cities across the world to inform better decision making?

Evening Meal

Featured Speakers

SWARCO

OZEV

TRANSPORT SCOTLAND

URBAN FORESIGHT

DUNDEE CITY COUNCIL

WORLD BUSINESS COUNCIL FOR SUSTAINABLE DEVELOPMENT

CLEAN ENERGY MINISTERIAL

DEPARTMENT OF GLOBAL CAR SHARING & RENTAL

FASTNED

SSE

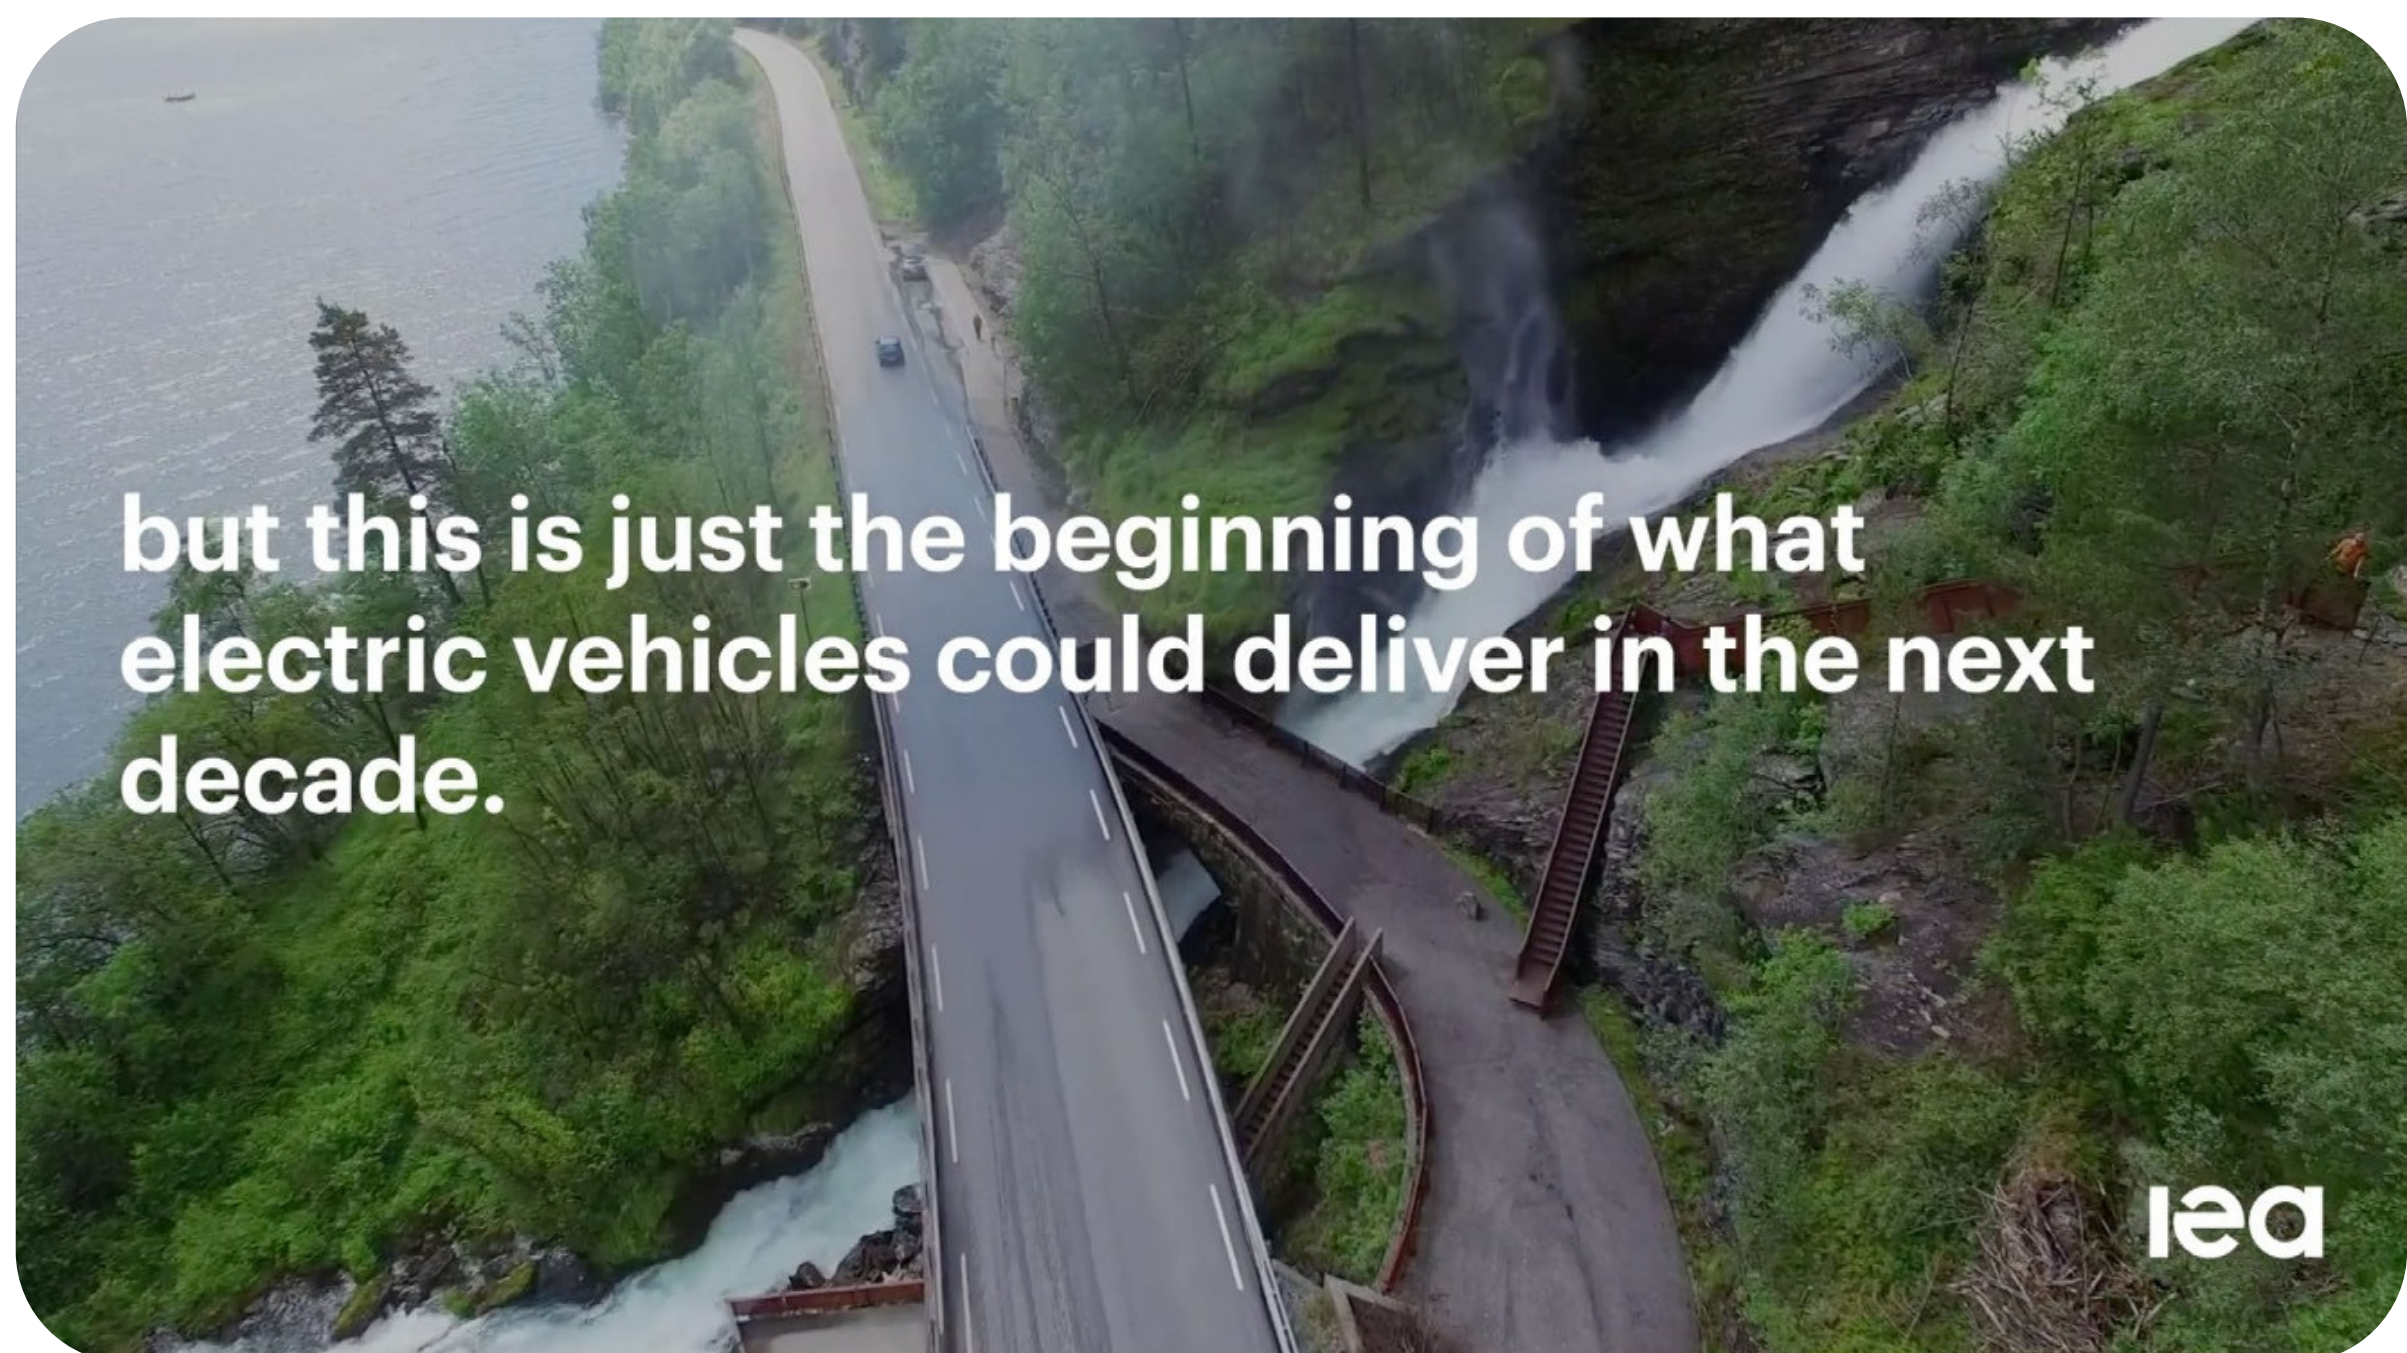

AND OTHERS

MORE ABOUT EVI-PCP

The Electric Vehicles Initiative (EVI) Global EV Pilot City Programme (EVI-PCP) aims to build a network of at least 100 cities over an initial period of 5 years, to work together on the promotion of electric mobility. Central pillars of the programme are to facilitate information exchange among cities and to encourage the replication of best practises, for example through webinars and workshops. Another important element is to use the network to build on experience gained by creating analytical outputs and reports to help cities and other stakeholders learn from earlier experiences of member cities. The Pilot City Forum is the annual feature of the EVI-PCP.
